PRIMARY EXAMINER

DETAILED ACTION

1. Claims 1 to 15 are presented for examination.

Information Disclosure Statement

2. The references listed in the information disclosure statement submitted on 10-4-5-2006 have been considered by the examiner (see attached PTO-1449).

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 1 to 5 and 13 to 15 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Independent claims (1 & 2) are indefinite because the claimed preamble and the body of the claims seems to convey different scopes, i.e., the preamble is directed to a method for decoding and the body seems to list steps for a mathematical algorithm per se. Therefore the claims as presented are not clear as required by the statutes.

Claim Rejections - 35 USC § 101

5. 35 U.S.C. 101 reads as follows:

Art Unit: 2133

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 1 to 5 and 13 to 15 are rejected under 35 U.S.C. 101 because the language of the independent claims raises a question as to whether the claims are directed merely to an abstract idea that is not tied to a technology art, environment or machine which would result in a practical application producing a concrete, and useful result to form the basis of statutory subjected matter under 35 U.S.C. 101.

Allowable Subject Matter

6. The indicated allowability of claims 1 to 5 and 13 to 15 is withdrawn in view of the new rejections as detailed above.

7. Claims 6 to 12 are allowed.

Conclusion
